PROFILE

First-Class BSc graduate and full-stack software engineer who ships AI-powered products end to end — often solo, always fast. Experienced building real-time, LLM-driven applications with real, paying users, from architecture through to launch. Comfortable across Python, TypeScript and Node.js, with deep hands-on experience integrating Gemini and Claude, and a strong sense for product and design. Looking for a graduate software engineering role where I can build things that matter and grow quickly.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, REST APIs, Firebase, Firestore, Supabase

AI / ML: LLMs, intelligent agents, Gemini API, Anthropic Claude API, prompt engineering

Cloud & Tools: Google Cloud, Vercel, Docker, Git, CI/CD

SELECTED PROJECTS

- **Cheerz** — AI-powered real-time multiplayer quiz platform. Built full-stack (Next.js, TypeScript, Firebase, Gemini API) and launched publicly to 200+ visitors, 50+ users and paying customers. Designed the real-time sync, AI question generation and monetisation. [cheerz.fyi](#)
- **ZoneIn** — AI zone-intelligence app for London gig drivers (Next.js, Gemini API, MapLibre, Stripe). Interviewed 41 drivers before building — 37 confirmed willingness to pay. [zone-in-cyan.vercel.app](#)
- **Urban Lens** — 3D interactive globe comparing LLM sentiment across 60 cities, with a live Claude-powered analysis panel. 2nd place, Middlesex MSc Data Science Hackathon 2026. [GitHub](#)
- **Fly Intelligence** — AI operator co-pilot dashboard for a DTC brand (Next.js, Gemini, Python), built solo at the Wayflyer × Fin Hackathon. [flyintelligence.vercel.app](#)

EXPERIENCE

Software Engineer — HLS

Jun 2025 – Aug 2025

- Built and shipped full-stack features in an Agile team, owning tasks from ticket to deployment.
- Developed React/TypeScript and Node.js components, integrated REST APIs, and contributed in code reviews.

Software Developer Intern — PHIS3

Aug 2024 – Jan 2025

- Delivered web features in JavaScript/TypeScript and worked with Firebase, collaborating with senior engineers across the software lifecycle.

EDUCATION

BSc Information Technology & Business Information Systems — First Class Honours Jun 2026

Middlesex University, London

Advanced Diploma in Software Engineering

2022 – 2024

Aptech Computer Education
